

Mobile Crushing & Screening

Mobile crushing plant, a new designed rock crushing & screening plant, which is flexible, convenient and strong in mobility, so it can save a large construction capital and relocation. Raw Materials can be broken at the local place without being transported again, and also can be moved with the further exploitation of the raw material, which saves a large number of transportation cost. Liming corporation specializes in producing crusher, screen, transportation, other rock breaking, mineral processing equipment. On the basis of professional technology, we optimize and introduce two large and three small series of crushing and screening equipment. The mobile series is tracked crushing plant, and the portable series is tyred crushing plant. Each large series is divided into three series: rough, medium and fine **crushing and screening mobile plant**. Therefore, it can fully adapt to the various mobile crushing and screening spots, and creates more new business opportunities for customers while reducing cost of production. The Mobile Crushing division comes with fully trained operators and mechanics. Our crushers are available for hire at competitive rates. Please call for details. Ability to crush material to the smallest size aggregate in its class.

Mobile Crushing & Screening Model Specifications

Technical Data//Model	Y3S1848	Y3S1860	Y3S2160
Transportation size (mm)	10100×2800×4350	11100×2820×4350	11100×3100×4350
Weight(t)	16	18	19
Tire Configuration	Dualaxial	Dualaxial	Dualaxial
Capacity(T/h)	50-250	60-300	80-400
Belt Conveyor Under Vibrating Screen	B800×7M	B800×8M	B1000×8M
Vibrating Screen	3YZS1848	3YZS1860	3YZS2160
Electric control standard	control box control panel	+ control box + control panel	control box + control panel

	Optional	Control box + LCD	Control box + LCD	Control box + LCD
Hydraulic leg	standard	4	4	4
	Optional	2	2	2
Hydraulic cylinder	standard	0	0	0
	optional	2	2	2
Genset (optional) (Kw)		120	120	120

Mobile Crushing & Screening Features:

- the [mobile crushing & screening plant](#) is designed with ship-form structure made of steel and low chassis.it is light in weight.owning to the reasonably designed body,it's fransportation furning radius is quite samll wight high maneuverabilify.
- belt conveyor for re-crushing material can be twisted and folded for an easy mainfenance of equipments on site and a convenient replacement of accessories.
- belt conveyor above the vibrating screen can be folded and put one the vibratin screen to reduce the transportation space.
- Great work and easy maintenance.

Mobile Crushing & Screening Benefits:

- the vehicle control cabinet is equipped with high-tech LCD touch screen and PLC control system.LCD touch screen wight human-machine dialogue function makes it process the functions of key start,misuse waring,protection,electrical control operations,fault and safe tips,which is convenient,high-efficient and secure.
- the outomatic-portable conveyor for return material make the installation of the whole plant is quite easy.
- landing legs adopt hydraulic lift mode which is of convenient operation and reliable performance.
- the [mobile crushing & screening plant](#) can be customerized in design.it can be manufactured either crushing first or conversely.
