

# Vibrating Feeder

The vibrating feeder is used to transfer the large size materials and granular materials from hopper to receiving device uniformly, periodically and continuously in the production flow and to feed materials into the crusher continuously and uniformly also to screen the materials in the sandstone production line. It is widely used to match the crushing and sieving equipments in many industries including metallurgy, coal mine, mineral dressing, building material, chemical, grinding, etc.

## Vibrating feeder's capability and characteristic are:

It vibrates calmly, works reliably with a long life-span; its stimulating vibrancy power can be adjusted, while the flux can be changed and controlled, it is convenient and stable to adjust; Vibrating feeder's vibrating electrical engine is stimulating vibrancy fountain, with low noise, low cost of electricity, and good adjusting capability, without rushing phenomenon. Its structure is simple and works stably, and easy to adjust and install, and it is convenient to maintain and take care for its light weight and small size, and it can avoid powder and dust pollution when using the closed structural body.

## Characteristics of Vibratory Feeder:

Smooth vibration, reliable operation, long service life, low noise, low power consumption, easy to adjust, simple structure, easy to install, light weight, small volume, simple maintenance.

## Technical parameter:

Model	Feed chute size (mm)	Max. feeding	Handling capacity	Power (kW)	Overall dimension (mm)	Weight (including
-------	----------------------	--------------	-------------------	------------	------------------------	-------------------

		size (mm)	(t/h)			motor) (kgs)
GZD-960×3800	960×3800	500	120-210	11	3880×2240×1880	3980
GZD-1100×4200	1100×4200	580	200-430	15	4300×2450×2010	4170
GZD-1100×4900	1100×4900	580	280-500	15	4980×2450×2030	4520
GZD-1300×4900	1300×4900	650	450-600	22	4980×2705×2050	5200

Notice: Any change of Vibrating Feeder technical data shall not be advised additionally.

### **Contact Us:**

Thank you for your interest in Liming Heavy Industry. Please feel free to use any of the methods below to get in touch with us.

Address: No.201-34, Huaxia 3rd Road, Pudong New Area, Shanghai, China.

Postcode: 201200
